SUBJECT INDEX TO VOLUME 46

(abs) = abstract (E) = editorial

Abdominal cases, acute, value of roentgen diagnosis in (abs), 580
Abscess, perforated interlobar, roentgenographic features, 798
Abscesses, pulmonary, technique for more precise localization of, 130
Acetabulum, fractures of rim of (abs), 284
Achalasia, pyloric, in adult (abs), 432
Adenitis, bulbo-urethral, urethrography in (abs), 281
infantile, roentgen therapy (abs), 595
Adenocarcinoma, renal, experimental studies on, in animals (abs), 588
Adenoids, roentgen demonstration of (abs), 568
Aluminum, standard curves of absorption of roentgen rays in (abs), 897
Amblystoma larvae, relative biological effectiveness of roentgen rays and neutrons on regeneration of forelimb of, 727
American Board of Radiology, 125
amendment to Article VIII of By-laws, 893
list of those certified during 1941, 891
new registry of, 894
American College of Physicians, 125
American Roentgen Ray Society, annual golf tournament, 271
annual meeting (E), 246; (E), 733
commercial exhibit, 743
instruction courses for Forty-second Annual Meeting, 253
new officers, 743
preliminary program of Forty-second Annual Meeting, 249
scientific exhibit, 739
Analgesic agent, roentgen radiation as, 532
Anemia, severe, in arachnodactyly (abs), 283
Aneurysm of pulmonary artery, differential diagnosis by intravenous contrast medium of two cases simulating, 646
Anginal pain, roentgen therapy for relief of, 532
Anomalies of hands in 100 cases of mongolism, roentgen study (abs), 285
Aorta, abdominal, and its branches, new technique for arteriographic examination of, 641
Appendectomy, protrusion of appendicial stump following (abs), 584
Appendix, invaginated stumps of, roentgenologically simulating polypoid neoplasms (abs), 585
protrusion of stump of, following appendectomy (abs), 584
Arachnodactyly with severe anemia (abs), 283
Arteriographic examination of abdominal aorta and its branches, new technique for, 641
Arteriolosclerosis, pulmonary, chest roentgenograms in polycythemia vera and polycythemia secondary to, 52
Artery, pulmonary, differential diagnosis by intravenous contrast medium of two cases simulating aneurysm of, 646
Arthritis, painful, roentgen therapy of, 532
Asbestosis, pulmonary (abs), 427
Asthma, infantile, roentgen study (abs), 428
Astragaloscaphoid synostosis, congenital, bilateral and isolated (abs), 435
Asymmetry in leg length, attempt to correct, by roentgen irradiation, 237
Atelectasis, 610
of lung, roentgen study (abs), 569
Axillary region, technique for roentgen study of, 189
Azotemia, pulmonary manifestations of, 802

"Basilar impression," diagnosis of (abs), 567
Bering's roentgen treatment of progressive paralysis, methods used in (abs), 757
Bezoars, shellac (abs), 581
Bile, calcareous (abs), 587
Biliary tract, roentgen findings in exploration of (abs), 434
Biological dose system, necessity of a coordinated, in radiation therapy (E), 883
effectiveness, relative, of roentgen rays and neutrons on regeneration of forelimb of *Amblystoma* larvae, 727
measurement of gamma rays in "equivalent roentgens" with mouse sarcoma No. 180 (abs), 602
measurement of high voltage radiations (abs), 598
reactions of radium and radon, comparison of (abs), 898
Biopsy, aspiration, of tumors of liver (abs), 440
in squamous carcinoma, evaluation of risk of (abs), 440
Bladder, cancer, electrosurgery as adjunct to radiation therapy in treatment of, 302
carcinoma, in exstrophy of (abs), 282
carcinoma, new approach to treatment of (abs) 757
epithelial tumors of (abs), 445
rupture of (abs), 281
supervoltage radiation treatment of tumors of (abs), 445
Blast, high explosive, effects of, on lungs (abs), 577
injuries, to lungs, experimental study (abs), 576
Blindness due to air embolism, complication of extrapleural pneumolysis (abs), 138

BONE, carcinomatosis of (abs), 749
growth centers, ring shadows around, 497
infection, nonspecific, cases of, with unusual or obscure features, 659
lesions, clinical examination of (abs), 436
marrow, prothrombin formation following injury of, by roentgen rays, 356
BONES, and joints, roentgen therapy for painful condition of (abs), 758
multiple lesions of, suggesting myeloma in pre-Columbian Indian aged ten years, 351
unusual metastatic lesions of, 343
BOOK REVIEWS
Clinical Roentgenology of the Alimentary Tract. By Jacob Buckstein, 127
The 1940 Year Book of Radiology. Edited by Charles A. Waters and Ira I. Kaplan, 127
The Calcified Pineal Gland. By W. Bergmann, 128
Les Bases experimentales de la Radiothérapie totale et subtotale. By Yu-Hans T'ang, 129
Biological Symposia. Volume I. Edited by Jaques Cattell
The Head and Neck in Roentgen Diagnosis. By Henry K. Pancoast, Eugene P. Pendergrass and J. Parsons Schaeffer, 422
The Rôle of the Liver in Surgery. By Frederick Fitzherbert Boyce, 422
Das Brustbein und seine Gelenke. By E. A. Zimmer, 423
BOTRYOMYCOSIS simulating pyloric carcinoma, 59
BRAIN tumors, difficulty in differentiating midbrain lesions from cerebellar lesions, 37
BRAN, roentgen study of intestinal motility as influenced by (abs), 144
BREAST, cancer, classification of, 709
carcinoma, effects of roentgen-ray dosage in, 89
carcinoma, panel discussion on, 891
hereditary cancer, irradiation and (abs), 756
BRONCHIECTASIS, reversible, 166
BRONCHITIS, chronic, of natives of North Africa, manifestation of sclerotic pulmonary tuberculosis in former syphilitics (abs), 428
BRONCHOMYCOSIS, roentgen aspects (abs), 573
BRONCHOSCOPE, cinematography through (abs), 579
BROOKLYN ROENTGEN RAY SOCIETY, 421
BULLETIN of Inter-Society Committee for Radiology, 124, 271, 416, 460
BULLETIN of American College of Radiology, 737
BURSITIS, roentgen therapy of, 532

CALCAREOUS bile (abs), 587
CALCIFICATION, extreme peripheral, of media in case of hyperparathyroidism and one of hypernephroma (abs), 286
renal, in adults (abs), 279
renal papillary (abs), 280
CALCIFICATIONS, multiple, disseminated pulmonary, in mitral disease (abs), 428
CALCULI, renal study of papillary calcification (abs), 280
CANCER, clinical aspects of supervoltage roentgen therapy in (abs), 599
electrosurgery as adjunct to radiation therapy in treatment of, 302
hereditary mammary, irradiation and (abs), 756
of breast, classification of, 709
of larynx, causes of failure in roentgen therapy of, 21
of larynx, present conception of treatment of (abs), 754
of larynx, surgical treatment, 30
of larynx, treatment by irradiation, 11
of larynx, value of tomography in (abs), 569
of rectum, radiation treatment, 207
of stomach (abs), 431
of uterine cervix, interstitial irradiation in, 700
pharyngeal, variations in radiation technique and biologic effects in treatment of (abs), 755
physical factors influencing growth of (abs), 588
CARCINOMA, breast, effects of roentgen-ray dosage in, 89
bronchial, associated with asbestosis (abs), 427
bronchogenic, with subcutaneous metastases (abs), 428
cells, vacuolar degeneration of, irradiated with roentgen rays (abs), 443
in exstrophy of bladder (abs), 282
mouse, irradiated with roentgen rays, study of course of reaction in (abs), 901
of bladder, new approach to treatment of (abs), 757
of breast, panel discussion on, 891
of cervix, pneumoperitoneum as aid in pelvic irradiation for, 689
of cervix, reaction of, to known doses of 800 kv. roentgen rays, five, four and three year survival rates (abs), 599
of large intestine (E), 406
of mucous membrane of cheek, radium treatment of advanced forms of (abs), 753
of penis, 232
of prostate, comparative study of modes of treatment (abs), 593
of rectum, treatment by electrocoagulation and radiation in selected cases (abs), 759
of thyroid gland, 469
of thyroid gland, radiation treatment, 451
of uterine fundus, radium treatment, 683
primary, of liver, roentgen diagnosis, 476
pyloric, simulated by localized subacute phlegmonous gastritis, 59
roentgen-ray, improved outlook in (abs), 763
squamous, evaluation of risk of biopsy in (abs), 440
CARCINOMATOSIS of bone (abs), 749
CARDIAZOL SHOCK, fracture of spine after treatment of psychoses with (abs), 592

Cardiovascular roentgen kymography (abs), 429
Cartilage, necrosis of, following irradiation, 287
Castration of female by irradiation (abs), 758
Cerebellar lesions, difficulties in differentiating midbrain lesions from, 37
Cheek, carcinoma of mucous membrane of, radium treatment of advanced forms (abs), 753
Chest, funnel deformity of, its recognition in posteroanterior roentgenograms of, 619
healthy, modifying influences of silicosis and silicosis with infection upon (abs), 575
miniature films in survey of (abs), 426
miniature roentgen film of (abs), 578
normal, study of (abs), 136
roentgen report of examination of, at U. S. Army Induction Station No. 6, 241
roentgenogram in polycythemia vera and polycythemia secondary to pulmonary arteriolosclerosis, 52
Childhood, roentgen studies of size of heart in (abs), 577
Children, acute colo-colic invagination in (abs), 583
appearance and nature of cyst-like areas in distal femoral metaphyses of, 185
polycythemia vera in (abs), 285
regional obstructive pulmonary emphysema in (abs), 139
roentgen study of acute infections in respiratory tract of, 622
troubles in gastric motility and secretions in (abs), 584
Cholangiography (abs), 585
Cholecystography, criticism of study of, in normal individuals (abs), 587
optimum voltage (abs), 586
Cinebronchography (abs), 579
Cinematography through bronchoscope (abs), 579
Cineroentgenographic diagnosis of congenital and acquired heart disease, 636
Classification of cancer of breast, 709
Colon, invagination of, into colon, in children (abs), 583
multiple diverticula of (abs), 582
new roentgen method for study of (abs), 433
phenomenon of motility in irritation of (abs), 584
polyps of (abs), 582
Congenital absence, total, of tibia, 841
Contrast medium, intravenous, differential diagnosis by means of, of two cases simulating aneurysm of pulmonary artery, 646
visualization of cardiac chambers and great vessels, multiple exposure technique in, 745
Cranial and intracranial complications of acute frontal sinusitis (abs), 134
Cranio-cerebral injuries, acute, management of (abs), 133
Cuboid, isolated fracture of (abs), 284
Cyst-like areas in distal femoral metaphyses of children, appearance and nature of, 185
Cysts, leptomeningeal, from roentgen viewpoint, 160
multilocular, of kidney (abs), 279
solitary congenital, of lung (abs), 140

de Abreu, method of, in diagnosis of tuberculosis in large group of individuals (abs), 427
Deformities, multiple, etiology of (abs), 283
of vertebrae as result of senile and presenile osteoporosis, 197
structural, of spine following bilateral laminectomy, 836
Densitometer, practical roentgenographic, 104
Dermatoses, associated with roentgen therapy, 518
Diverticula, multiple, of jejunum, duodenum and colon (abs), 582
of upper end of stomach, 650
Diverticulum, Zenker's, and esophago-cutaneous fistula (abs), 136
Dolichocolon, gastric disorders associated with (abs), 433
Dosage, distribution of, in rotating roentgen irradiation (abs), 896
effect, standard curve for radiation, stability of, 400
effects of roentgen-ray, in breast carcinoma, 89
focal, with constant deep intensity in teleroentgen therapy (abs), 901
in roentgen therapy of inflammations (abs), 596
measurements with million volt roentgen rays, 376
radium (abs), 896
Dose constant, determination of (abs), 900
decrease in, by use of harder rays in roentgen diagnosis (abs), 441
system, biological, necessity of a coordinated, in radiation therapy (E), 883
therapeutic, in treatment of malignant tumors (abs), 441
Dosimetry, radium, in medical practice (abs), 902
Doughty, William M., portrait opposite p. 605
Drosophila eggs, action of ultra-hard roentgen rays on (abs), 760
Dunaliella salina, immediate and delayed action of roentgen rays on (abs), 602
Duodeno-colic fistula, benign (abs), 581
Duodenum, multiple diverticula of (abs), 582
ulcer, anatomo-roentgenography of (abs), 144
Dwarfism, pituitary, with atrophic rhinitis (abs), 136
Dysostosis multiplex, 336
Dysplasia, polyostotic fibrous, 145
puncticularis, epiphyseal (abs), 749

Eastern Conference of Radiologists, 744
program, 890
Echinococcosis, primary, of kidney (abs), 589
Eczematoid dermatitis, infectious, associated with roentgen irradiation, 518
Editorials
Peptic ulcer in the war services, 120

The annual meeting, 246
Carcinoma of the large intestine, 406
The use of iodized oil in roentgenography, 407
Claudius Regaud, 1870–1940, 409
Charles A. Stammel, 1886–1941, 412
The necessity for radiation protection, 551
G. W. C. Kaye, 1880–1941, 553
William Clark Wescott, 1868–1941, 556
The annual meeting, 733
The necessity of a coordinated biological dose system in radiation therapy, 883
EFFECT, immediate and delayed, of roentgen rays on protozoan *Dunaliella salina* (abs), 602
of heat on Wood's sarcoma (abs), 594
of high explosive blast on lungs (abs), 577
of industrial gases on human lung, roentgen study (abs), 573
non-harmful, of irradiation of pituitary region of rabbits, 543
of roentgen radiation on immunity of Shope fibroma virus (abs), 603
of roentgen-ray dosage in breast carcinoma, 89
of roentgen rays on tumor of known genetic constitution (abs), 897
or roentgen therapy upon infections produced in skin of rabbits with cultures of *Streptococcus haemolyticus* and *Staphylococcus aureus*, 96
of vitamin B complex deficiency on gastric emptying and small intestinal motility, 866
ELECTROCOAGULATION and radiation, treatment of carcinoma of rectum by (abs), 759
as adjunct to radiation therapy in treatment of cancer, 302
ELECTRODESICCATION as adjunct to radiation therapy in treatment of cancer, 302
ELECTRONS, high speed, principles of new therapy with (abs), 761
ELECTROSURGERY as adjunct to radiation therapy in treatment of cancer, 302
EMBOLISM, air, blindness due to, complication of extrapleural pneumolysis (abs), 138
EMPHYSEMA, regional obstructive pulmonary, in infants and children (abs), 139
spontaneous renal and perirenal, 173
symmetrical pulmonary, with multiple giant bullae (abs), 429
EMPYEMA, interlobar, roentgenographic features, 798
ENCEPHALOGRAPHY, retention of intraventricular air following, 324
ENDOCRINE GLANDS, skin eruption associated with roentgen irradiation of, 527
ENDOTHELIOMA, pleural (abs), 429
EPIPHYSES, multiple striae parallel to, and ring shadows around bone growth centers, 497
stippled (abs), 749
EPITUBERCULOSIS (abs), 138
ERYSIPELAS following roentgen irradiation, 526
Escherichia coli infection, cause of case of spontaneous renal and perirenal emphysema, 173
ESOPHAGO-CUTANEOUS FISTULA and Zenker's diverticulum (abs), 136
ETHMOIDITIS, polypoid, radium therapy in (abs), 753
EWING'S TUMOR simulating sarcoma of soft tissue origin (abs), 436
EXSTROPHY of bladder, carcinoma in (abs), 282

FEMUR, subluxation of, in association with fracture of rim of acetabulum (abs), 284
FETUS PAPYRACEOUS, antepartum roentgen diagnosis of (abs), 588
FIBROMA virus, Shope, influence of roentgen radiation on immunity to (abs), 603
FIBROMAS of nasopharynx (abs), 137
FIBROSARCOMA, development of, as result of intra-articular injection of radium chloride for therapeutic purposes (abs), 442
FIELD distribution measurements, importance of, 719
FILING SYSTEM for teaching collection in roentgen diagnosis, 109
FILM, miniature, copying of roentgenograms on, 276
FISSURES, frontal, in bodies of vertebrae (abs), 590
FISTULA, benign duodeno-colic (abs), 581
esophago-cutaneous and Zenker's diverticulum (abs), 136
FOOT, necrosis of sole of, following irradiation, 287
FOREIGN BODIES, localization of, by Strohl's method (abs), 602
FOREIGN BODY, finding of an unusual (abs), 592
unusual intracranial, 484
FRACTURE, isolated, of cuboid (abs), 284
of rim of acetabulum with subluxation of femur (abs), 284
of spine after treatment of psychoses with cardiazol shock (abs), 592
soldier's (abs), 592
FRACTURES of vertebrae as result of senile and presenile osteoporosis, 197

GALLBLADDER, strawberry, roentgen diagnosis (abs), 586
tumors, roentgen demonstration of, 329
value of upright position in examinations of (abs), 586
GAMMA RAYS, biological measurement of, in "equivalent roentgens" with mouse sarcoma No. 180 (abs), 602
measurements of exposure to (abs), 899
GASES, industrial, roentgen study of effects of, on human lung (abs), 573
GASTRIC motility and secretions in children, troubles in (abs), 584
GASTRITIS, localized subacute phlegmonous, simulating pyloric carcinoma, 59
GASTROINTESTINAL TRACT, compression device in examination of (abs), 582
hemangioma of (abs), 142
miscellaneous objects found in, 75
roentgen studies of, in rats, on vitamin B_1 deficiency diets, 876

spot film in roentgen examination of (abs), 583
GONADS of sexually mature domestic fowl, effects of roentgen rays on (abs), 763
GRANULOCYTES, accumulation of, following in vivo roentgen irradiation of mouse sarcoma No. 180 (abs), 603
GRANULOMA, systemic reticulo-endothelial (abs), 285
GLOMUS TUMOR, subungual, roentgen aspects, 667
GREAT VESSELS, at base of heart, study of, by sectional roentgenography (abs), 430
evaluation of roentgen kymogram in study of diseases of, 784
multiple exposure technique in contrast visualization of, 745
GYNECOLOGY, inflammatory affections in, indications for radiotherapy (abs), 596

HANDS, anomalies of, in 100 cases of mongolism, roentgen study (abs), 285
HEART, chambers of, multiple exposure technique in contrast visualization of, 745
disease, congenital and acquired, cineroentgenographic diagnosis of, 636
evaluation of roentgen kymogram in study of diseases of, 784
in childhood, roentgen studies of size of (abs), 577
roentgenology of, value of exact cardiac measurements, 794
study of great vessels at base of, by sectional roentgenography (abs), 430
HEARTBURN, intractable, of pregnancy (abs), 577
HEAT, dry action of, on Wood's sarcoma (abs), 750
effect of, on Wood's sarcoma (abs), 594
HEMANGIOMA, close roentgen irradiation in (abs), 444
of gastrointestinal tract (abs), 142
radiation treatment, 220
HEREDOFAMILIAL deviations (abs), 135
HERNIA of lung, 321
HERPES ZOSTER following roentgen irradiation, 518
roentgen therapy of, 532
HODGKIN'S DISEASE (abs), 437
end-results in irradiated, 80
in one of homologous twins, 69
involving stomach, 827
HOSPITALS, employment of physicians, by, some legal aspects, 271, 416, 560
HYDRO-URETER, congenital (abs), 280
HYPERNEPHROMA, extreme peripheral calcification of media in (abs), 286
HYPERPARATHYROIDISM, extreme peripheral calcification of media in (abs), 286
treatment by roentgen irradiation, 224
HYPERTHYROIDISM, roentgen treatment (abs), 594

ILEOCECAL region, roentgen study (abs), 583
tuberculosis (abs), 432
ILEUS, postoperative, roentgenography in (abs), 580
INDIAN, pre-Columbian, aged ten years, multiple bony lesions suggesting myeloma in, 351
INDIANA ROENTGEN SOCIETY, 124
INDURATION, plastic, of penis, radium treatment (abs), 594
INDUSTRIAL CENTER, large, silicotuberculosis as seen in (abs), 576
INFANT, newborn, projectile vomiting and intoxication in (abs), 280
tense pneumothorax in, successful treatment by production of chemical pleuritis (abs), 138
INFANTS, regional obstructive pulmonary emphysema in (abs), 139
roentgen picture of notch in vertebral body of (abs), 435
roentgen study of asthma in (abs), 428
roentgen therapy of adenitis in (abs), 595
toxicoses in, etiology and pathogenesis (abs), 438
INFARCTION, healed, 610
INFECTION, clinical and roentgenographic evidence of, in paranasal sinuses (abs), 135
INFECTIONS, acute, roentgen study of, in respiratory tract of children, 622
in skin of rabbits with cultures of *Streptococcus haemolyticus* and *Staphylococcus aureus*, effect of roentgen therapy on, 96
roentgen therapy (abs), 595
INFLAMMATIONS, dosage of roentgen therapy in (abs), 596
gynecological, indications for radiotherapy in (abs), 596
radiotherapy in, and its mode of action (abs), 596
roentgen therapy (abs), 595
roentgen therapy clinical results (abs), 597
INFLAMMATORY diseases of larynx, value of tomography in (abs), 569
INFLUENZAL pneumonitis, roentgen consideration of, 175
INSULIN treatment and ultrashort wave irradiation, roentgen irradiation combined with (abs), 445
INTERLOBAR INCISURE, great accumulation of gas and liquid in, on right side (abs), 572
INTERVERTEBRAL DISC, changes in, in sciatica (abs), 590
INTESTINAL MOTILITY as influenced by bran, roentgen study (abs), 144
INTESTINE, large, carcinoma of (E), 406
large, submucous lipoma of (abs), 585
small, effect of vitamin B complex deficiency on motility of, 866
small, intubation of, demonstration and localization of partially obstructive lesions (abs), 432
INTOXICATION and projectile vomiting in newborn infant (abs), 280
INTRACRANIAL foreign body, unusual, 484
INTRAVENTRICULAR air, retention of, following encephalography, 324
INTUSSUSCEPTION, unusual adult case, 832

INVAGINATION, acute colo-colic, in children (abs), 583
IODINE, radioactive, as indicator in thyroid physiology, 467
IODIZED OIL, use of, in roentgenography, 362; (E), 407
IRRADIATION and electrocoagulation, treatment of carcinoma of bladder by (abs), 759
and hereditary mammary cancer (abs), 756
castration of female by (abs), 758
in distant metastases, restoration of normal activity of patient as object of (abs), 438
interstitial, in cancer of uterine cervix, 700
of Hodgkin's disease, end-results in, 80
of pituitary gland in posterior lobe hyperfunction controlled by biologic tests, 673
of pituitary region of rabbits, non-harmful effects of, 543
pelvic, pneumoperitoneum as an aid in, for carcinoma of cervix, 689
pendulum, measurements in (abs), 762
respiratory changes in normal and malignant tissues following (abs), 603
treatment of laryngeal cancer by, 11
IRRITATION, phenomenon of motility in, of colon (abs), 584

JAW, necrosis of, following irradiation, 287
JEJUNUM, multiple diverticula of (abs), 582
pimary lymphosarcoma of, 182

KAYE, G. W. C., 1880–1941, obituary (E), 553
portrait, 553
KENTUCKY RADIOLOGICAL SOCIETY, 421
KIDNEYS, benign and malignant hypernephoid tumors of, relationship of (abs), 590
calcification of, in adults (abs), 279
calculi of, study of papillary calcification (abs), 280
multilocular cysts of (abs), 279
primary echinococcosis of (abs), 589
spontaneous renal and perirenal emphysema, 173
KYMOGRAM, roentgen, evaluation of, in study of diseases of heart and great vessels, 784
KYMOGRAPHY, cardiovascular roentgen (abs), 429
roentgen, clinical evaluation of, 778
roentgen, in constrictive pericarditis, 765

LAMINECTOMY, bilateral, structural deformities of spine following, 836
LARYNGOCELE, 1
LARYNX, cancer, causes of failure in roentgen therapy of, 21
cancer, present conception of treatment of (abs), 754
cancer, surgical treatment, 30; (abs), 755
cancer, treatment by irradiation, 11
diseased, tomography of value in inflammatory and malignant diseases (abs), 569
neoplasms of, 1
normal, 1
recurrent paralysis of, 1
sagittal planigraphy of (abs), 426
tomography of, 1
LEG length, attempt to correct asymmetry in, by roentgen irradiation, 237
LEPTOMENINGEAL CYSTS, from roentgen viewpoint, 160
LEUKOPLAKIA, electrosurgery as adjunct to radiation therapy in treatment of, 302
syphilis and malignant tumor (abs), 440
LEUKOSES, experiments in transmission of, from mice to roentgen irradiated rats (abs), 898
LICHEN RUBER PLANUS, indirect roentgen irradiation of (abs), 752
LIP, cancer, electrosurgery as adjunct to radiation therapy in treatment of, 302
LIPIDS, egg, fixation of radon by emulsion of (abs), 899
LIPOMA, submucous, of large intestine (abs), 585
LITHIASIS, pancreatic, 64
LIVER, aspiration biopsy of tumors of (abs), 440
primary carcinoma, roentgen diagnosis, 476
LOCALIZATION of foreign bodies by Strohl's method (abs), 602
technique for more precise, of pulmonary abscesses, 130
LUMBOSACRAL REGION, necrosis of, following irradiation, 287
LUNG, diseases of right middle lobe of (abs), 427
asbestosis (abs), 427
atelectasis, roentgen study (abs), 569
effects of high explosive blast on (abs), 577
experimental study of blast injuries to (abs), 576
hernia of, 321
human, roentgen study of effects of industrial gases on (abs), 573
involvement of, in lymphoblastomas (abs), 574
linear shadows in, 610
manifestations in, of azotemia, 802
multiple disseminated calcifications in, in mitral disease (abs), 428
regional obstructive emphysema of, in infants and children (abs), 139
significance of roentgen visibility of horizontal fissure (abs), 572
solitary congenital cysts of (abs), 140
superior pulmonary sulcus tumor of Pancoast (abs), 140
symmetrical emphysema, with multiple giant bullae (abs), 429
technique for more precise localization of abscesses of, 130
LYMPH NODES, bronchial, tuberculosis of (abs), 570
hilar, tuberculous adenopathy of, in adults (abs), 570
mediastinal, tuberculous adenopathy of, in adults (abs), 570

Lymphadenoma, treatment of, with roentgen-ray baths (abs), 762
Lymphoblastomas, pulmonary involvement in (abs), 574
Lymphosarcoma, primary of jejunum, 182

Malpractice, medical, contributory negligence as it applies to (abs), 438
Marfan's syndrome (abs), 283
Mastitis, acute puerperal, roentgen therapy in (abs), 756
Measurement, biological, of gamma rays in "equivalent roentgens" with mouse sarcoma No. 180 (abs), 602
biological, of high voltage radiations (abs), 598
of quantity and quality of roentgen rays in supervoltage range, 376
Measurements, field distribution, importance of, 719
